Attempt to Destroy Records

[By telegraph to the Constitution.] Washington, February 23.—The windows of the building occupied by the ordinarce and engineer departments was fired by an incendiary. The building is opposite the navy department, which has been fired three times. Some one is crazy or there is a plot to destroy records.

Georgia Pinances.

[By telegraph to the Constitution.]

New York, February 23.—The Herald has an ugly special to the effect that the Georgia state treasury is a million short. Treasurer Jones reported over \$1,000,000 in the treasury, when only \$150,000 was found. An investigation shows at least \$159,000 bonds have been paid twice. Treasurer Jones says Henry Clews, who was state agent, never gave him any statement of the disbursements. If Clews paid bonds without cancelling them, and put them on the market again, Treasurer Jones had no means of knowing. The whole state regards Jones perfectly honest. His bond is \$200,000.

The age is prolific of projects for overcoming great natural obstacles. The Suez canal, the tunnel under the Alps, and the new Hoosac bore are sufficient examples of this tendency. Three other great schemes are mooted, every one of which will probably be in the way of completion before another score of years has passed away. These three are the Panama canal, the tunnel under the stratts of Dover, and the new project for uniting Europe and Africa by a tunnel under the narrow straits of Gibralter. To construct the latter a company has just been organized in Spain. The point of departure in Spain will be between Tarifa and Algesiras, and the point of entrance into Africa, between Tangier and Centa. The submarine portion will be 13,800 metres in length, or about ten miles. The Spanish papers believe this colossal enterprise will be realized in the course of ten years. "Missus, he's a mournin'."

The teacher endeavored to quiet the boy, but he would not be quieted. The pious epidemic spread, and soon the children began to cluster around the "mournin" one. The excitement increased, and the pupils commenced a series of contortions accompanied by gesticulations and groans. Then with one accord the inky assemblage burst out singing one of their favorite hymns. Headed by a big girl, they began perambulating the aisle in single file, keeping time to a melodious walk-around chant, and swaying their bodies with that peculiar undulating motion so familiar in plentation life in the sunny south.

The teacher was at a loss what step to take, whether it would be best to call in assistance or to let matters take their course. She was joired in a few moments by the teacher who presided over a school in an adjoining room. Herchildren, too, had caught the contagion, and dren, too, had caught the contagion, and from indications it seemed more than likely that she was fated to witness an other scene similar to the one just described. A hurried consultation ensued, and it was decided that since the children were determined to have a proper more than the contagion of the contagion and the contagion and

The attention of the first invited to the further investigation of those credits claimed by the treasurer, and which have not received the sanction of the finance committees.

The examination made of the treasury department has satisfied your committee that a thorough revision and change in the manner of its administration should be made. The business of the department is loosely and inaccurately conducted, and there appears a want of system and arrangement, which, with the absence of important and necessary debit and credit entries, renders it difficult, if indeed possible, to determine promptly and definitely the exact status of the affairs of this department. In essential particulars the law has not been complied with. The code of Georgia provides, "That the treasurer shall keep a book in which he shall record a description of all bonds heretofore or hereafter

Swinging low on a slender limb,
The sparrow warbled his wedding hymn,
And balancing on a blackberry brier,
The bobloimk sung with his heart on fire
"Chink! If you wish to kiss her, do!
Do it! do it! You couard, you!
Kiss her! kiss her! Who will te!
Only we threa! we threa! we threa!

Do tit do tit "Purcoustry, your Kiss her! kiss her! Who will te? Only we three! we three! we three! Under garlands of drooping vines, Through dim vi tas of sweet-breathed pines, Past wide meadow-fields, lately mowed, Wandered the indoient country road. The lovers followed it, listening still, And, loitering slowly, as lovers will, Entered a gray-roofed bridge that lay Dusk and cool, in their pleasant way. Under its arch a smooth, brown stream, Shently gliede with glint and glem, Shaded by graceful elms which spread, Their verdurous canopy overhead—The stream so narrow, the boughs so wide, They met and mingled across the tide, Alders loved it, and seemed to keep Patient watch as it lay asleep, Mirroring clearly the trees and sky, And the flitting form of the dragon ily—Save where the swift-winged swallows played.

In and out in the sun and shade, Fluttering lightly from brink to brink,
Followed the garrulous bobolink,
Rallying loudly with mirthful din,
The pair who langered unseen within,
And when from the friendly bridge at last
into the road beyond they passed,
Again beside them the tempter went,
Keeping the thread of his argument—
"Kiss her! kiss her! chink--chee-chee!
Pil not ment on it! Don't mind me!
Pil be se-tine!—I con see
All araund from this tall beach tree!"
But ah! they noted—nor deemed it strauge but ah! they noted—nor deemed it straige-n his rolleking chorus a trifling change— "Do it" do it!"—with might bud main Warbled the tell tale—"Do it again!"

Consumerives, Take Notice.—Every moment of delay makes your cure more hopeless, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pul monic Syrup, as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Almanac, containing the cer. tifleates of many of the highest respectability, who have been restored to health, after being pronounced inearable by physicians acknowledged ability. Schenck's Pulmon c Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Mandrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifes that most any case of Consumpt'on may be cured.

Dr. Schenck is professionally at his printhe Auditor's box will be closed at 12 o'clock m., on Thursday before the first and

ETIWAN DISSOLVED, which is the very highted grade of acid Phosphate, or Superphosphate of Lime, now offered to the public, is the cheapest and most valuable Commercial Fertilizer to be had in this or any other market, and when composted with cot ton seed, stable manure, etc., gives the farmer the most reliable crop food to be found and its great economy cannot be question. Early orders are solicited.

We advise the planting of a half crop of cotton. Make the soff rich, and we prophesy a high price for ne at November. Make your provisions and be independent, and sell your cotton when you get ready.

PREMIUM FLOUR.

IN again calling attention to our popular grades of flours, we will attempt no further elaboration of their merits, except to say, that no flour in the wide world can surpass our FFF in purity of stock and richness of sample; and that the world can't produce a more substantial or nutritive flour than our FF.

The Family is good for the price, but, necessarily limited in quantity; being made only when we make the FFF.

We can readily fill orders for FFF and FFF; but in selling Family, we are compelled to limit the orders to the supply on hand. limit the orders to the supply on hand.

Orders for the three grades in equal quantity can be filled at short notice. or for FFI and Family in nearly equal quantities. Orders can generally be supplied promptly.
